

# NGUYEN MINH QUAN

Intern

- **Short-term goal:** Participate in a professional development environment, apply knowledge of JavaScript/TypeScript, React and Node.js to contribute to real product features
- **Long-term goal:** Develop into a specialized Full-stack Software Engineer, capable of building and optimizing high-performance web applications (MERN/MEAN stack)

## 🎓 Education

### 2023 – Now

#### FPT UNIVERSITY

Currently studying a Bachelor of Software Engineering (Software Engineering), focusing on website building with a narrow focus on React-NodeJS

GPA: 8.5

## 💼 Experience From Project

### • BUILDING A WEBSITE TO SELL BOOKS

#### BookLy

- Create a website built with JSP/Servlet to post, search and buy and sell books.
- The website with the book selling system named BookLy, is built according to MVC structure combined with notifications sent via user's gmail.
- With the front-end using JSP, HTML, CSS, JS and the Back-end using Servlet and Java.
